

Minecraft Class Computer Requirements

INSTRUCTIONS:

1. **Follow the instructions here to download the Java edition of Minecraft.**

<https://www.minecraft.net/en-us/download/>

This class requires Minecraft Java edition to be installed on a Windows or Mac Laptop/Desktop Computer.

- **Bedrock editions/Windows 10 editions are NOT compatible.**
- **Tablets/iPads, mobile devices, gaming consoles, and Chromebooks are NOT suitable for Minecraft classes.**

2. **We recommend purchasing your own Minecraft account**, which can be used in the future after the class is over as well. If you're unable to, we have a few accounts we can lend out for the class. **Java edition will need to be downloaded either way.**

3. **Please have Zoom installed on the same computer as Roblox.**

You can connect using this zoom link at your scheduled time. This will bring you to our “waiting area” while the coaches wrap up their previous class.

<https://zoom.us/j/8397195438?pwd=R2p0NDdHY0IGYTJxRXFBWDh3by9aUT09>

- **Please check your Zoom user name before entering the Zoom classroom.**
The coach will only allow students in the classroom once the name is correct.

PLEASE NOTE:

Just so you know, we will be sharing the screen back and forth and the coach will also ask for control to enter credentials and to help kids if they are having troubles.

Please test your speakers/mic before class. Make sure you're in a quiet place free of noise and distraction. You can use headphones if you'd like to block out noise.
